SOFTWARE ENGINEERING
(2018)

ABOUT ME

A multilingual professional with web front-end, back-end, and mobile experience. I cater to a dynamic range of users, increasing company reach with the help of my technical and interpersonal skills. I speak both Spanish and German fluently, allowing me to connect and understand a wider range of company customers and staff.

WORK EXPERIENCE

Freelance(2019 - present) **Small Projects and Portfolio Development**

Working to create personal projects while consuming new tech stacks

- Working with Node.js, Express, MongoDB
- Further developing personal app with ProPublica API

Software Engineer(2018 - 2019) **EachScape, Manhattan**

A cloud based environment to build and manage native mobile applications, also maintains E! News app.

- Worked with React Native to maintain the E! News apps for ios/android, tracked tickets on JIRA, version control with GIT
- Created a client cataloguing web app with React and EachScape Database
- Used HTML/CSS & JavaScript to create reusable components for EachScape SDK platform

Project Manager(2017 - 2018) **Office Depot Corporate Offices, Boca Raton**

An office supply retailing company.

- Implemented discovery of data center servers and network gear
- Established content management database to improve system integrity
- Migrated company from Google Apps to Microsoft O365 in 6 months

MY PROJECTS

Fabrikant Jewelers (fabrikant.eachscape.com) A tool for the company to store client information.

- Tech: React.js/Redux, EachScape API, EachScape DB
- Create, delete, update and view clients & their significant others.

InforMee (<https://youtu.be/HXDGytM1vys>) A political app to follow bills after they're introduced into the Senate.

- Tech: React/Redux, Rails, PostgreSQL, ProPublica API
- Users can view, store, and search for new bills in the House of Representatives.

Crypto_Crash (http://github.com/krtb/Crypto_Crash) CLI role playing game, where you're an amateur crypto trader looking to escape to Canada.

- Tech: Ruby, Sinatra, SQLite3, Active Record, TTY Prompt, Pastel
- Earn crypto worth \$5,000, while encountering a deteriorating global society that causes you to sell off your precious assets.
